"Let's put Mello-Gloss on the walls in every room"

The beauty, the washable and long-wearing properties of Love Brothers Mello-Gloss on kitchen and bathroom walls, have induced many home owners to use it throughout the house.

Mello-Gloss is a wall paint that dries with a beautiful satiny sheen; that can be wiped off as clean as a china plate, and just as easily.

Ordinary dirt, grease and even ink spots do not affect it. And it stands repeated washings.

Made in twelve tints called Rest-Tones. Come in and see the samples and ask for booklet.

WOMEN PLAN TO RETAIN THEIR MAIDEN NAME

Gotham Organization Condemns Custom of Girls Taking Cognomen of Mere Husband.

New York, May 19.—The difficulties in a woman's owning her own name were threshed out by the Lucy Stone league at a meeting Tuesday night in the Hotel Pennsylvania, called merely to vote on the constitution. United, we stand apart from our husbands, it was decided, but divided, we fall into union with them in the matter of names.

Eleven women members and one man member—since to belong one need only be "in sympathy with its object"—attended.

The problem of married members, who slipped, in their early youth, into the careless custom of using their husband's names, was discussed. It was decided it was unreasonable to expect a "Mrs. Black" of twenty years standing to revert to "Miss Brown" to prove her loyalty to the league. Rather let her devote her energies to guiding other young girls from the fatal step.

The passport problem came up too. The solution was found to be education for the department of state, so that it would abandon its ruling about issuing passports to married women as mistresses.

The constitution went through with out a hitch. It provides for as many branches as wish to form and keeps the object of the league in the single path, "to protect, instruct and encourage those women who wish to continue their own names after marriage."

To Clean Oil Paintings.

A simple way to clean oil paintings, and one that will not injure the colors beneath the dirt, is to cut a raw potato in half and rub it quickly over the painted surface. Then polish with a silk handkerchief to remove dust or dirt.

PUT TALENT TO LITTLE USE

Horace Walpole Chiefly Famous for Making Collection of Curious and Valuable Objects.

The death of Horace Walpole on March 2, 1797, calls to mind a collection of curious and valuable objects which he had collected in his famous country seat, Strawberry Hill.

One article of great elegance was a silver bell which had been made by Benvenuto Cellini for Pope Clement VII, with a rich display of carving on the exterior representing serpents, flies, grasshoppers and other objectionable insects, the purpose of the bell having been to serve a papal curing of these animals when they became so troublesome to demand that mode of exorcism.

Another curious article suggesting the beliefs of a past age was the Shew-stone of Doctor Dee, a piece of polished cannon coat which had been used by that celebrated mystic as a mirror in which to see spirits. But we of this generation and in what we are pleased to call the age of enlightenment have our crystal gazers, astrologers and ouija boards, although they are not being used or believed by the community on mass.

But the glories of Strawberry Hill have come to an end and way back in '42 the entire collection passed under the hammer and was dispersed in a sale which lasted almost four weeks. Throngs came to see the home of the man who devoted his no mean talents to the pursuit of trifling importance—"piling up trifles to a colossal height and making a pyramid of nothing."
